Contents volume 8

Vol. 8, No. 1 (August 1991)

Special Issue: Posture and Seating, edited by R.E. Thomas, Jr. and J.J. Congleton

Preface
R.E. Thomas and J.J. Congleton 1
Some fundamental aspects of posture related to ergonomics
R.S. Bridger (Cape Town, South Africa) 3
Effect of pneumatic screwdrivers and workstations on operator body posture
L.J.H. Schulze (Houston, TX, USA), R.J. Koppa, J.J. Congleton (College Station, TX, USA) and J.D. Whiteley (Wright-Patterson AFB, OH, USA) 17
The kyphotic lumbar spine: Issues in the analysis of the stresses in stooped lifting
S. Gallagher and C.A. Hamrick (Pittsburgh, PA, USA) 33
An exploratory study of spinal creep measurement in a simulated aircraft environment
J.D. Whiteley (Wright-Patterson AFB, OH, USA), J.J. Congleton (College Station, TX, USA), R.E. Thomas (Houston, TX, USA) 49
A model for the objective assessment of automobile restraint systems
W.S. Marras (Columbus, OH, USA) 59
Evaluation of seating: The influence of hip and knee angles on spinal posture
J. Eklund and M. Liew (Linköping, Sweden) 67
Investigation of the lumbar flexion of the seated man
A.C. Mandal (Klampenborg, Denmark) 75
Seating comfort and its relationship to spinal profile: A pilot study
R.R. Bishu, M.S. Hallbeck, M.W. Riley and T.L. Stentz (Lincoln, NE, USA) 89
An investigation of relationships between driver comfort, performance and automobile seat type, during short term driving tasks
R.E. Thomas, Jr., J.J. Congleton, R.D. Huchingson, J.R. Whiteley and C.C. Rodrigues (College Station, TX, USA) 103
Dynamic interface pressure between seated users and their wheelchairs
K.M. Eckrich and P.E. Patterson (Ames, IA, USA) 115

Vol. 8, No. 2 (October 1991)

Effect of short-time vibration exposure on work movements with carpenters' hand tools
Eva Hammarskjöld, Karin Harms-Ringdahl, Jan Ekholm and Björn Samuelson (Stockholm, Sweden) 125
A new method for checking the driving visibility on hydraulic excavators
F. Hella, M. Tisserand, J.F. Schouller and M. Englert (Vandoeuvre, France) 135
Metabolic analysis of support personnel in low-seam coal mines
A. Freivalds and C.J. Bise (University Park, PA, USA) 147
Muscular activity in simulated light work among subjects with frequent neck-shoulder pain
E.-P. Takala and E. Viikari-Juntura (Helsinki, Finland) 157

Review article

Review and evaluation of techniques for determining fatigue allowances
A. Mital (Cincinnati, OH, USA), R.R. Bishu and S.G. Manjunath (Lincoln, NE, USA) 165

Case study

Evaluation of in-plant ergonomics training
B.A. Silverstein (Olympia, WA, USA), S.E. Richards (Flint, MI, USA), K. Alcser and S. Schurman (Ann Arbor, MI, USA) 179

Vol. 8, No. 3 (November 1991)

Special Issue: Construction, edited by Shrawan Kumar

Editorial
S. Kumar 195
Injury profile of the construction industry in Alberta in Canadian context: A case study of the impact of a non-monetary motivational factor in a multicenter Albertan company
S. Kumar (Edmonton, Alberta, Canada) 197
Safety hazards and motivation for safe work in the construction industry
M.G. Helander (Buffalo, NY, USA) 205
Workload in lower arm and shoulder when using manual and powered screwdrivers at different working heights
R. Örtengren (Göteburg, Sweden), T. Cederqvist (Danderyd, Sweden), M. Lindberg and B. Magnusson (Linköping, Sweden) 225
Fatigue development in the lumbar paravertebral muscles of bricklayers during the working day
K. Jørgenson, B.R. Jensen and M. Kato (Copenhagen, Denmark) 237
Task analysis and electromyography for bricklaying at different wall heights
A. Luttmann, M. Jäger and W. Laurig (Dortmund, Germany) 247
Lumbar load during one-handed bricklaying
M. Jäger, A. Luttmann and W. Laurig (Dortmund, Germany) 261
The effect of posture on triaxial trunk strength in different directions: Its biomechanical consideration with respect to incidence of low-back problem in construction industry
M. Parnianpour, M. Campello and A. Sheikhzadeh (New York, NY, USA) 279
A nonlinear optimization force model of the human lumbar spine
Jung Soo Han, V.K. Goel and S. Kumar (Iowa City, IA, USA) 289

Vol. 8, No. 4 (December 1991)

Design, selection and location of foot controls
H.-J. Bullinger, J.E. Bandera and W.F. Muntzinger (Stuttgart, Germany) 303
A pilot evaluation of posture behavior during seated tasks
H. Hsiao and W.M. Keyserling (Ann Arbor, MI, USA) 313
A method for determining the difference threshold of judging weight difference in material handling
Mao-Jiun J. Wang, Chih-Ming Liu and Yuh-Chuan Shih (Hsin-chu, Taiwan, ROC) 335
An approach towards the design of intelligent man–machine interfaces used in process control
M. Tendjaoui, C. Kolski and P. Millot (Valenciennes, France) 345

Case study
A new approach for anthropometric design applied to a blast cabin
M. Göbel, R. Herting-Thomasius and H. Luczak (Berlin, Germany) 363
